Introducing the BryFour Gate™

Mission-Ready for Pedestrian Site Access

Patent Pending: GB2418033.3

Introducing the New Innovation in Site Safety. Engineered specifically for high-security construction sites, the BryFour Gate™ is a breakthrough in pedestrian access and perimeter protection.

Simple design: works seamlessly with RB22 barriers by slotting into the barrier to create a safe, secure pedestrian gate.

Total stability: The BryFour Gate™ locks securely to the barrier, eliminating falling risks and weak points.

Reduces H&S risks: eliminates trip hazards, falling gates and breaking hinges.

Built to last: Say goodbye to buckling baseplates, failing welds, and excessive maintenance costs.

Reduces costs: BryFour Gate extends the over system lifespan, meaning less replacements, less maintenance time and less incidences.

Custom
Branded
Signage
Available

Why switch to BryFour Gate™?

Compared to a Traditional Hooped Gate

- 30x Longer Life - no replacements, less downtime.
- Save 6 Man Hours - no replacement install, get more time back.
- Save £525 - per gate replacement, that's real savings.
- Cut 1.1 kgCO₂e - per gate replacement, a greener choice.

These figures are based on the gate lasting 3 times the length of a traditional gate as seen on Hinckley Point C.

Already in use at Sizewell C, Hinkley Point C, and multiple Balfour Beatty projects, the BryFour Gate™ is proving its value on high-profile sites across the UK.

A License to Give:

OUR PPE CHARITY WORK

At Bryson, we're committed to making a real impact. That's why we've partnered with Peabody to donate unused PPE and workwear to those in need, supporting communities beyond construction.

We chose to reuse before recycling, giving garments a second life before their end of use. All branding is removed before being donated and reused.

Let's continue making smarter. faster. greener. choices together!

The Intel Report:

CATCH-UP ON THE LATEST BRYSON BLOGS

To get the insights you need to stay ahead. Our latest resources cover some of the most pressing issues facing the industry today.

Reviewing PPE Stock

Following urgent BSI warnings, we explain why PPE audits matter, the risks of outdated gear, and how to stay compliant.

AFFF Fire Extinguisher Ban: What You Need to Know

With AFFF foam extinguishers banned by July 2025, we explore what it means for your business and the best compliant alternatives.

FIND OUT MORE

From Ipswich With Love:

Inside Our NEW Warehouse

At Bryson, we're not just supplying PPE, we're shaping the future of site safety and service. That's why we're excited to announce the launch of our new Ipswich warehouse.

Located near our existing offices in Leiston and Maldon, this facility plays a critical role in supporting the local Sizewell C area, reinforcing our commitment to efficiency, accessibility, and sustainability.

What This Means for Our Customers

The Ipswich warehouse is a fully integrated hub designed to streamline PPE supply and site services. With this expansion, we've:

- Increased storage capacity to ensure faster, more efficient deliveries

- Installed a second in-house production area to expand custom branding and tailored PPE capabilities
- Strengthened our delivery model to offer truly nationwide coverage

24-Hour Access with BryStore & Lockers

To ensure workers get what they need, when they need it, the Ipswich facility supports both collections from BryStore™ and direct locker deliveries. Workers can:

- Collect PPE 24/7 at the on-site BryStore™
- Get measured for a perfect PPE fit, including sustainable and inclusive options

Future plans include expanding remote locker systems, offering multiple collection points for even greater accessibility.

The Innovation Lab:

WHAT'S NEW FROM BRYSON AND THE CONSTRUCTION INDUSTRY

At Bryson, innovation is at the heart of what we do. Whether it's boosting safety, improving durability, or simply making your site run smoother. Here's a look at the latest breakthroughs.

Spaghetti Site Mat PVC – Now in Green and Grey

- Exceptional drainage
- Traps dirt
- Anti-slip
- UV resistant
- Heavy duty & durable
- Ideal for high traffic areas

Code: 83860

NLG Phone Harness Kit – The Ultimate Drop Prevention

- Prevents phone drops on-site
- Secure, all-in-one phone tether
- Easy to access

A Great Step Forward for Sustainable PPE – Traffi's TG6240 with EPD

The Traffi TG6240 is the world's first industrial safety glove with an Environmental Product Declaration (EPD), combining sustainability with high performance for cut-risk tasks in wet, dry, and oily conditions.

Code: 72365
(Available in sizes 6 - 11)

Code: 105483 (XS/S)
105484 (M/L)

EcoViz Hijab

At Bryson, we support initiatives driving positive change in construction, like the new PPE hijab from Tarmac and Leo Workwear designed to improve comfort, safety, and inclusivity for women on-site.

Mediana Difib's

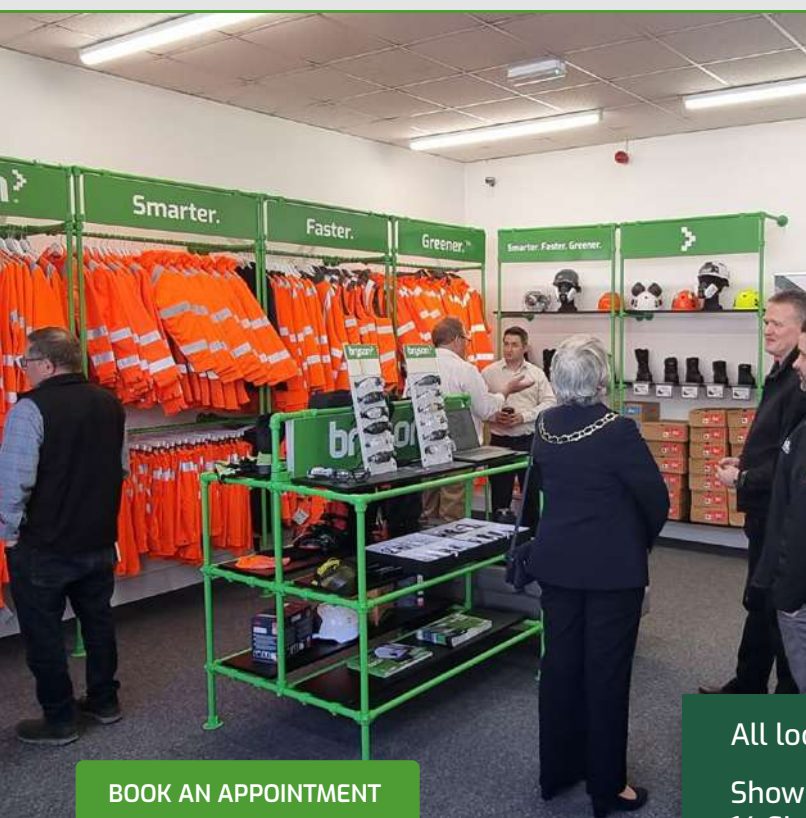

- Compact & lightweight for easy storage
- Requires no training
- Easy to use voice & visual prompts
- Ideal for busy high-risk environments

Code: 64746
Mediana A16
Defibrillator

Code: 42234
Mediana A15
Defibrillator

Now Open - Sizewell PPE Fitting Showroom

As part of the Chartered Institute of Building (CIOB) national #PPEThatFits initiative, Bryson has opened a dedicated PPE showroom in Leiston. The space allows construction workers to be professionally measured and fitted with PPE tailored to their body, role, and cultural needs. Backed by leading brands and on-site experts, the showroom sets a new standard in inclusive safety gear.

Optimised Site Solutions:

FURNITURE, MANAGED SERVICE & SUSTAINABLE SITE SETUP

Every great mission requires the perfect setup, and at Bryson, we're leading the way in furniture, managed services, and sustainable site setup helping construction professionals create safe, efficient, and environmentally responsible worksites.

Common challenges with getting projects set-up:

- Are your orders incorrectly scoped and planned?
- Do you lose track of large orders?
- Do you get frustrated with multiple deliveries?
- Is your site equipment inadequately installed?
- Do you have sustainability requirements that are not being considered?
- Do you struggle knowing what to do with equipment at the end of the job?

Streamline your projects with Sustainable Site Set-Up Service.

Discover
Efficient,
Eco-Friendly
Site Set-Ups

Think of **Bryson's Site Set-Up** service as your project's eco-conscious partner. Ready to start your project on the right foot?

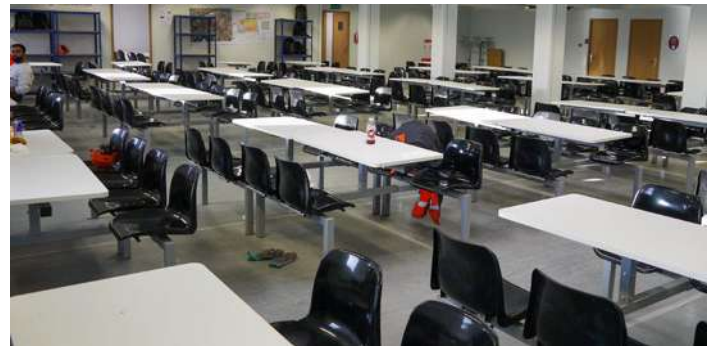

[CONTACT US](#)

Helping contractors organise safe professional site set-ups, whilst looking after the site set-up equipment at the end of the project. Let us take the wheel, and you can focus on building something great

A simple approach to Site Set-Up ordering, ensuring easy and complete delivery of goods from start to finish.

- We'll help you identify your requirements, space, people and green goals tailored to your site needs & commercial objectives
- Using BrysonBase or our in-house experts, we'll support you in placing your site set-up order, complete with eco-friendly product alternatives
- Our in-house Logistics team will coordinate your order, ensuring one order and one delivery, complete with installation if required
- Just because your site set-up is complete that's not the end of it's journey. We help you manage your long-term green goals with our reduce, reuse and recycle initiatives, like PPE recycling.

**Ready to transform your site setup?
Let's talk.**

With our 100% in-house design and production, you can get high-quality, custom-branded PPE, workwear, signage, and temporary protection.
